

**Department of Machine Design and Terotechnology,  
AGH University of Science and Technology – Cracow**

**Institute for Sustainable Technologies – National Research Institute – Radom**

**Committee of Mechanical Engineering, Polish Academy of Science – Warsaw**

**Polish Tribology Society – Warsaw**

# **8th International Symposium INSYCONT '10**

**ENERGY AND ENVIRONMENTAL ASPECTS  
OF TRIBOLOGY**

**Cracow, Poland**

**July 7th–9th**

**2010**

## Contents

E.V. BEREZINA, B. A. GODLEVSKIY, S.A. KUZNETSOV <b>Molecular modeling of border lubricant layer .....</b>	7
Olexandr DYKHA, Sergiy POSONSKI <b>The structure of friction surfaces: technical and biological aspects</b>	11
S.V. INSHAKOV, I.V. BORZYKH, V.I. BALABANOV, S.A. ISHCHEKNO, V.V. LEHTER <b>Change of transmission lubrication properties due to introduction of the metal plated additives .....</b>	18
Irina V. IVANOVA, Anna A. ZAMJATINA, Svetlana S. LEBEDEVA <b>Directions of actualization of human factor and capital in triboproduct competitiveness support .....</b>	22
Irina V. IVANOVA, Anna A. ZAMJATINA, Svetlana S. LEBEDEVA <b>Parametric models of certain human factor actualization systems in achievement of competitiveness of triboproducts .....</b>	30
Ievgen V. IVASHCHENKO, Galyna G. LOBACHOVA, Volodymyr F. MAZANKO, Ivan L. OBORSKIY <b>The structure and properties of surface layers on Fe-Cr alloys by Electric-spark alloying by Cr-anode .....</b>	38
Branko IVKOVIC <b>Tribology properties of gear lubricants – results of tests on Twin Disk Machine .....</b>	43
Roman KACZYŃSKI <b>Mini-generator of Electric Using Working Medium Flow as the Working Environment for Tribological Nodes .....</b>	49
M. KANDEVA, E. ASSENOVA, M. MANOLOVA-DANEVA <b>About the Balkan Tribological Association and some of its achievements and innovations .....</b>	61
Vitliy G. KAPLUN, Pavel V. KAPLUN <b>Fatigue life of steel elements covered with TiN coatings .....</b>	68

Michail KHEIFETZ, Sergey KOUKHTA, Józef GAWLIK, Stanislaw PYTKO <b>Synergetic Aspects of High-Performance Methods of Surfacing in Technological and Operational Processes .....</b>	79
Stanisław KRAWCZYK, Janusz ŁABĘDŹ <b>Evaluation of the usefulness of application of cutting fluids containing complexes of copper when aluminum alloy drilling ...</b>	91
Dariusz LEPIARCZYK, Jerzy TARNOWSKI, Wacław GAWĘDZKI <b>Experimental determination of kinetic friction coefficient in material pair cast iron–ferodo .....</b>	99
Maciej MATUSZEWSKI <b>Wear process of kinematic pairs elements and method of their machining .....</b>	111
B.V. ORLOVSKIJ, V.B. MACHULSKIJ, A.J. KOLOMIETS <b>Friction textile threads in the loop .....</b>	121
Valentin L. POPOV, Jasminka STARCEVIC, Elena TEIDELT <b>Influence of in-plane and out-of-plane ultrasonic oscillations on sliding friction .....</b>	128
N.S. RAVSKA, G.P. KLIMENKO, M.A. TKACHENKO <b>Cutting tool wear heavy lathe .....</b>	137
Michał STYP-REKOWSKI, Eugeniusz MAŃKA <b>Operating's surroundings as factor determining mechanism and intensity of wear process .....</b>	148
Vladimir Y. ZAMJATIN, Alexander Y. ZAMJATIN, Svetlana S. LEBEDEVA, Yury P. ZAMJATIN <b>Analysis and enhancement of wearing capacity and safety of high-loaded swivel gland critical elements .....</b>	160
V.I. ZHORNIK., A.V. IVAKHNIK, S.A CHIZHIK <b>The implantion of nanosized additives in structured skeleton of grease dispersed phase .....</b>	168
